SAFETY DATA SHEET

Section 1: Identification of the substance/mixture and of the company/undertaking

Product identifier

Trade name or designation

of the mixture

Tankmaster

Registration number

Synonyms None SDS number

Product code 40 - 20

Date of first issue 21-February-2011

Version number

Revision date 03-December-2014 21-February-2011 Supersedes date

Relevant identified uses of the substance or mixture and uses advised against

Identified uses Fire fighting foam concentrate.

Uses advised against None known. Details of the supplier of the safety data sheet

Supplier

Company name Angus Fire Ltd Station Road **Address**

Bentham, Lancashire, LA2 7NA

0044 (0)15 2426 4000 Phone number:

e-mail general.enquiries@angusuk.co.uk

Contact person EH&S Manager

Section 2: Hazards identification

Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Directive 67/548/EEC or 1999/45/EC as amended

Classification R43

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Skin sensitisation Category 1 May cause an allergic skin

reaction.

Environmental hazards

Hazardous to the aquatic environment -

acute hazard

Category 1

Hazardous to the aquatic environment -Category 3

long-term hazard

Hazard summary

Tankmaster

Physical hazards Not classified for physical hazards.

Health hazards May cause sensitisation by skin contact. Occupational exposure to the substance or mixture may

cause adverse health effects.

Not classified for hazards to the environment. **Environmental hazards**

Specific hazards May cause skin and eye irritation. May cause irritation of nose, throat and mucous membranes. Main symptoms Contact may cause irritation and redness. Symptoms of overexposure may be headache,

dizziness, tiredness, nausea and vomiting. Sensitisation.

SDS EU

Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains: 1,3,5-tris(2-hydroxyethyl)hexahydro-1,3,5-triazine

Signal word Warning

Hazard statements May cause an allergic skin reaction.

Precautionary statements

Prevention Avoid breathing mist/vapours/spray. Contaminated work clothing should not be allowed out of the

workplace. Wear protective gloves.

IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical Response

advice/attention. Wash contaminated clothing before reuse.

Store away from incompatible materials. Storage

Dispose of contents/container in accordance with local/regional/national/international regulations. Disposal

Supplemental label information

Other hazards Not a PBT or vPvB substance or mixture.

Section 3: Composition/information on ingredients

Mixture

^{#:} This substance has workplace exposure limit(s).

Tankmaster 2/9

3906 Version No.: 03 Revision date: 03-December-2014

DSD: Directive 67/548/EEC

CLP: Regulation No. 1272/2008.

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in

percent by volume.

The full text for all R- and H-phrases is displayed in section 16.

Section 4: First aid measures

Description of first aid measures

Inhalation Move injured person into fresh air and keep person calm under observation. Get medical

attention, if needed.

Skin contact Wash the skin immediately with soap and water. Get medical attention if irritation develops and

persists. If skin rash or an allergic skin reaction develops, get medical attention.

Immediately flush eye(s) with plenty of water. Remove any contact lenses. Get medical attention if Eye contact

irritation develops or persists.

Immediately rinse mouth and drink plenty of water. Keep person under observation. If person Ingestion

becomes uncomfortable take to hospital along with these instructions. Only induce vomiting at the

instruction of medical personnel.

Most important symptoms and effects, both acute and delayed Contact may cause irritation and redness. Symptoms of overexposure may be headache,

dizziness, tiredness, nausea and vomiting. Sensitisation.

Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

Section 5: Firefighting measures

General fire hazards Product is an extinguishing medium. It does not burn or support combustion.

Extinguishing media

Suitable extinguishing

No specific measures are required as this product is a fire extinguishing medium.

Unsuitable extinguishing

media

Not applicable.

Special hazards arising from the substance or mixture

Not a fire hazard.

Advice for firefighters

Special protective

equipment for firefighters

Special firefighting procedures

clothing must be worn in case of fire.

No specific precautions.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency

personnel

Avoid contact with skin and eyes. Avoid inhalation of mists or aerosols. Provide adequate ventilation. Wear protective clothing as described in Section 8 of this safety data sheet.

Self-contained breathing apparatus, operated in positive pressure mode and full protective

For emergency responders

Use personal protection recommended in section 8 of the SDS.

Environmental precautions

Prevent entry into waterways, sewer, basements or confined areas.

Methods and material for containment and cleaning up Absorb spillage with suitable absorbent material. Collect and dispose of spillage as indicated in

Section 13.

Reference to other sections

For personal protection, see section 8. For waste disposal, see Section 13.

Section 7: Handling and storage

Precautions for safe handling Avoid contact with skin and eyes. Wear appropriate personal protective equipment. Wash hands

after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Store at temperature below 40°C. Store above freezing.

Store away from incompatible materials.

Specific end use(s) Fire fighting foam concentrate.

Recommended monitoring

procedures

Follow standard monitoring procedures.

DNEL Not available. **PNEC** Not available.

Exposure controls

Appropriate engineering

Ensure adequate ventilation, especially in confined areas. Observe occupational exposure limits and minimise the risk of exposure.

controls

Individual protection measures, such as personal protective equipment

General information

Personal protective equipment should be chosen according to the CEN standards and in

discussion with the supplier of the personal protective equipment.

Eve/face protection

Wear approved safety goggles.

Skin protection

- Hand protection Wear suitable gloves. Butyl rubber gloves are recommended. Suitable gloves can be

recommended by the glove supplier.

- Other Wear suitable protective clothing.

Respiratory protection In case of inadequate ventilation: Use respiratory equipment with combination filter, type A2/P2.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Handle in accordance with good industrial hygiene and safety practices. Routinely wash work

clothing and protective equipment to remove contaminants.

Environmental exposure

Contain spills and prevent releases and observe national regulations on emissions.

controls

Environmental manager must be informed of all major spillages.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state Liquid. **Form** Liquid. Colour Dark brown. Odour Organic. **Odour threshold** Not available.

pН

Melting point/freezing

point

-15 °C (5 °F)

Boiling point, initial boiling 100 °C (212 °F) at 760mm Hg

point, and boiling range

> 100 °C (> 212 °F) Flash point Not applicable. **Auto-ignition temperature** Flammability (solid, gas) Not applicable. Flammability limit - lower Not applicable.

Tankmaster SDS EU 6/9

3906 Version No.: 03 Revision date: 03-December-2014 Other data

Flammability Not applicable.

Other information No relevant additional information available.

Section 10: Stability and reactivity

Reactivity The product is stable and non reactive under normal conditions of use, storage and transport.

Chemical stability Stable at normal conditions.

Possibility of hazardous

reactions

Hazardous polymerisation does not occur.

Conditions to avoid Contact with incompatible materials. Excessive heat. Freezing (Product properties are

unaffected).

Incompatible materials Alkali metals. Strong oxidising agents. Water reactive materials.

Hazardous decomposition

products

Carbon oxides. Chlorine. Sulphur oxides. Metal oxides. Nitrogen oxides (NOx).

Section 11: Toxicological information

General information The information in this section is for the individual ingredients that are expected to contribute to

the potential health effects of this product.

Information on likely routes of exposure

May cause discomfort if swallowed. Ingestion

Inhalation Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

Skin contact May cause skin irritation. May cause an allergic skin reaction.

May cause eye irritation on direct contact. Eye contact

Skin sensitization, characterized by redness, inflammation, itching and/or burning may result from **Symptoms**

prolonged or repeated contact with this material.

Information on toxicological effects

May cause skin and eye irritation. May cause an allergic skin reaction. **Acute toxicity**

Components **Test results**

2-Methylpentane-2,4-diol (107-41-5) Acute Oral LD50 Rat: 4,79 g/kg Ferrous sulphate (7720-78-7) Acute Oral LD50 Rat: 319 mg/kg

Skin corrosion/irritation Prolonged skin contact may cause dermatitis.

Serious eye damage/eye

irritation

May cause eye irritation.

Respiratory sensitisation No data available.

Skin sensitisation May cause an allergic skin reaction.

Germ cell mutagenicity No data available. Carcinogenicity No data available. Reproductive toxicity No data available. Specific target organ No data available.

toxicity - single exposure

Specific target organ toxicity - repeated

exposure

No data available.

Aspiration hazard No data available.

Mixture versus substance information

None known.

Other information

Persons with pre-existing skin disorders may be more susceptible to the effects of the product.

Section 12: Ecological information

Toxicity

Product	Test results
Tankmaster (Mixture)	LC50 Rainbow trout, donaldson trout (Oncorhynhus mykiss): > 10000 ppm 24 hours
	LC50 Rainbow trout, donaldson trout (Oncorhynhus mykiss): > 10000 ppm 3 hours
	LC50 Rainbow trout, donaldson trout (Oncorhynhus mykiss): > 10000 ppm 48 hours

Tankmaster SDS EU

Product	Test results
	LC50 Rainbow trout, donaldson trout (Oncorhynhus mykiss): > 10000 ppm 6 hours
	LC50 Rainbow trout, donaldson trout (Oncorhynhus mykiss): 5400 ppm 72 hours
	LC50 Rainbow trout, donaldson trout (Oncorhynhus mykiss): 4200 ppm 96 hours
Components	Test results
2-Methylpentane-2,4-diol (107-41-5)	EC50 Water flea (Ceriodaphnia reticulata): 2400 - 3200 mg/l 48 hours
	LC50 Bleak (Alburnus alburnus): 7000 - 9100 mg/l 96 hours
Zinc oxide (1314-13-2)	LC50 Water flea (Daphnia magna): 0,098 mg/l 48 Hours
Sodium chloride (7647-14-5)	EC50 Water flea (Daphnia magna): 340,7 - 469,2 mg/l 48 hours
	LC50 American eel (Anguilla rostrata): 0 - 27260 mg/l 96 hours
Ferrous sulphate (7720-78-7)	EC50 Water flea (Daphnia magna): 6,15 - 9,26 mg/l 48 hours
. 5.1545 54.P.1416 (1125 15 1)	LC50 Brook trout (Salvelinus fontinalis): 0,41 mg/l 96 hours

Persistence and degradability

Mobility

The product is biodegradable.

Bioaccumulative potential

The product is not expected to bioaccumulate. COD: 0,65gg-1. The product is water soluble and may spread in water systems.

Environmental fate - Partition coefficient

No data available.

Mobility in soil No data available.

Results of PBT and vPvB assessment Not a PBT or vPvB substance or mixture.

Section 13: Disposal considerations

Waste treatment methods

Residual waste Dispose of waste and residues in accordance with local authority requirements.

Contaminated packaging Dispose of in accordance with local regulations. Empty containers should be taken to an approved

waste handling site for recycling or disposal.

EU waste code 16 03 05* Waste codes should be assigned by the user based on the application for which the

product was used.

Disposal methods/information Dispose of waste and residues in accordance with local authority requirements.

Section 14: Transport information

ADR

The product is not covered by international regulation on the transport of dangerous goods.

RID

The product is not covered by international regulation on the transport of dangerous goods.

ADN

The product is not covered by international regulation on the transport of dangerous goods.

IATA

The product is not covered by international regulation on the transport of dangerous goods.

IMDG

The product is not covered by international regulation on the transport of dangerous goods.

Transport in bulk according to Annex II of MARPOL73/78 and

No information available.

the IBC Code

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulations

Tankmaster sps Eu

Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex I

Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex II

Not listed.

Regulation (EC) No. 850/2004 on persistent organic pollutants, Annex I

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 1

Directive 96/61/EC concerning integrated pollution prevention and control (IPPC): Article 15, European Pollution **Emission Registery (EPER)**

Sodium chloride (CAS 7647-14-5) Zinc oxide (CAS 1314-13-2)

Regulation (EC) No. 1907/2006, REACH Article 59(1). Candidate List

Not listed.

Other regulations The product is classified and labelled in accordance with EC directives or respective national

laws. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006.

Young people under 18 years old are not allowed to work with this product according to EU National regulations

Directive 94/33/EC on the protection of young people at work. Follow national regulation for work

The mixture is classified based on test data for physical hazards. The classification for health and

environmental hazards is derived by a combination of calculation methods and test data, if

with chemical agents.

Chemical safety assessment No Chemical Safety Assessment has been carried out.

Section 16: Other information

List of abbreviations DNEL: Derived No-Effect Level. PNEC: Predicted No-Effect Concentration. PBT: Persistent,

bioaccumulative and toxic. vPvB: Very Persistent and very Bioaccumulative.
